

Can I have more than one person logged into ShedTech at the same time?

Last revised Saturday, 05 September 2009

Yes. In fact there is no limit to the amount of people you can have running ShedTech at the same time.

It is even possible for 2 or more people to be logged into ShedTech with the same User ID. In this case, each user will immediately be able to see what is being done by the other user, but there is also the potential to overwrite each others information if editing.
